

TEEN CAMP FOCUS SEMINARS

Every summer, teens come together for this extraordinary experience that helps enrich their relationships with both family and peers.

In addition to classic camp activities, teens will get the opportunity to explore their own desires and goals, share struggles and fears with other campers, and get real about who they truly are as they work to find their unique voice in this ever-changing world.

With its combination of FUN and powerful self discovery, this camp is designed to unleash authentic potential and is an event that your teen will remember for a lifetime.
